Description

Features

Smaller and more maneuverable than a lumbering Star Destroyer, the Imperial Light Cruiser is armed with multiple quad laser turrets and ion-beam batteries. The small but formidable warship is also capable of launching fighter squadrons.

4D Precision Model Kits introduces to you the official 4D The Mandalorian Imperial Light Cruiser™. Manufactured with our Precision Core-Gate™ Technology, each model is an Official Star Wars™ Licensed Product.

4D and Lucasfilm has officially partnered together to bring you the most detailed 4D kits we have manufactured to date. With our Precision Core-Gate™ Technology our modeling sheets are manufactured with 1.45 mm thickness. All color specs are approved through part-to-part references to match the true likeness and color. The final assembled product is a real-life collectible model for the core fans.

A full instruction booklet is included. A tube of 6 ml modeling glue is also provided as small amounts are required during the final steps of the assembly. Additional stands are included for final display purposes.

Puzzle Pieces: 265 pcs

Scale: 1:66

What's in the box:

PDF Sheets

1x Glue
