### Description

Put the pedal to the metal in your 1/24 scale touring car with the Carrera DIGITAL 1/24 DTM Full Speed set! The Audi RS LMS GT3 Evo II (Team Abt Sportline, No.7) is a dream car for every motor racing enthusiast. In the DTM series the former GT3 champion Ricardo Feller sits at the wheel on behalf of the Abtju racing stable. He cracked up a win at Imola in his very first DTM season. His adversary on this circuit is the red and yellow BMW M4 GT3 Schubert Motorsport, No.31, the car driven by South Africa's Sheldon van der Linde, who won the overall DTM drivers' championship in the 2022 season.

The faithfully reproduced 1/24 scale racing cars are almost impossible to tell apart from the originals in the current series, whether on the 9.3-meter Carrera race circuit or in a collector's display case. The circuit set comes with WIRELESS+ control handsets to provide maximum freedom of movement at track side. Speed and braking performance can be set on each car to ensure every driver enjoys an extremely authentic racing experience.

#### Additional features:

- 9.3 meter track length
- True to original cars in scale 1:24, with front and rear brake lights
