### Description

For over 30 years Squadron Kites has been an innovator of unique airplane based kite kits. With such historic legends as the Curtiss Jenny and the Wright Flyer, Squadron Kites has been a favorite of kite and airplane enthusiasts alike.

Uniquely constructed for teens and adults, each Squadron Kite features all bass wood airframes, injection molded key plastic pieces, preprinted airspan and full scale instructions.

No kit needed.

Fly with a single line or maneuver with two lines.

Fly in wind from 4 to 20 mph.

Disassembles for storage and transport.

Technical data

Wingspan: 1220 mm
