Description

The GT Power X4 Pro Quad charger is a simple yet powerful quad output (4x 100W) dual input multifunctional charger with built in LiPo balancer (JST-3H) for up to 6S Lithium batteries.

It features 4 individual charging circuits allowing you to charge 4 batteries simultaneously regardless of battery type and cell count.

It is packed with features that exceeds many higher cost units.

Primarily designed for Lithium Polymer (LiPo, Li-Poly) batteries, it can also charge Li-Ion, Li-Fe (AT2301), Li-IHV Ni-Cd, Ni-MH, and Pb (lead acid) batteries.

FEATURES:

All Charging cables and balance boards included (As per image)

Capacity Limit

Maximum cable

Temperature monitoring

Real power monitoring

Easy to program button

Battery memory

Individual cell monitoring

Charge Back in LCD display

Built in Balancer to 6S pack

Cycle charging/discharge

Includes "FAST" and "STORAGE" Li-Iv programs

Small Footprint

Long balance and charge leads (270 and 300mm respectively)

DETAILS:

Output 4x 100W (400W Total)

Recharge 4x 6W (24W Total)

Balancing current 300mA/cell

Operating input voltage: 10 - 18V DC or 100-240V AC

Ni-Cd / Ni-MH : 1 - 15 Cells

Li-Ion / Li-Po / Li-Fe / Li-IHV: 1 - 6 Series

Charge current: 0.1 - 7.0A

Discharging current: 0.1 - 3.0A

Pb / Lead Acid: 2 - 20V

Built in Cell Balancer: Up to 6S (series) Li-Po (JST-3H connector)

Up to 3V/2-3A USB output

No. of Cycles: Up to 5 Cycles

Weight: 1550g (without cables)

Dimensions: W110mm x D183mm x H238mm
