### Description

#### OVERVIEW

This LED program box is for programming Hobbywing brushless ESCs. Its friendly interface makes ESC programming easy and quick.

It's compact, portable, and very applicable for field use.

Works with the following Hobbywing products:

1. Platinum V1/V2 series and Flyfun V3 series of brushless aircraft ESCs.

2. X4Run series (some X6Run ESCs, please take the instructions of relevant user manuals as standard), EzRun series and QuickRun series of brushless car ESCs.

3. Sparking series of brushless boat ESCs.

#### SPECS

Size: 108x68x14mm / LxWxH

Weight: 74g

Input Voltage: 4.8V~8.4V (a separate battery is needed for powering this program box when ESC has no built-in/external BEC)
