### Description

This 2-in-1 RC vehicle allows you to transform a forklift truck into a crane, play music and turn on the lights.

There is also an auto demonstration button for the truck to carry out a series of movements!

#### FEATURES

##### 1:1 Rep. Transformation

Just take off the fork and replace it with the hook. You can get a completely different model within a few seconds!

##### 3-Channel Operation

There are 7 different keys on the transmitter. Each is associated with a function. Therefore, you can command the RC vehicle as you wish.

##### 2.4GHz Control System

The remote control system uses 2.4GHz signals which feature excellent anti-interference, so you are able to control the truck 30m away and even with 100 RC models nearby!

##### Auto Demonstration

You can take advantage of the auto demonstration button to control the vehicle because it is capable of performing different actions.
