Description

Needle size: 0.2mm

cup capacity: 10ml

Features:

Pressure airflow regulation with M&C (Micro Air Control) valve for proper control of painting the thinnest lines.

Soft trigger (Semi-Easy soft button) and PTFE seals give maximum painting comfort.

Ability to paint large areas and thin lines under 0.4mm.

Maximum needle movement lock (locking full and continuous control of the spray width).

Very well balanced, sits perfectly in the hand.

Thanks to the use of the highest quality components, the airbrush is reliable, easy to use and clean.
