### Description

A low-cost 240V input to 12V output power supply with an integral cooling fan.

The 12v output is via 2 x 4mm banana plug sockets enabling any 12V DC fast charger to be connected. (Banana Cables not included)

Integral LED Indicator

Improved switching power provides a more constant and stable 12v output supply (13.8V Max)

Interior setting voltage is 13.8v +/-0.1v
