### Description

RCEXL is today the world's leader that provides the highest quality products for all RC industry needs. We are real proud to introduce the world's smallest smoke/gasoline pump with adjustable flow.

#### DESCRIPTION:

Brand Name: RCEXL

Item Name: Mini Smoke Smoking Pump

Voltage: 3.3-3.7V

Pump Style: Membrane

Weight: about 65g

Dimension(L\*W\*H): 40\*22.5\*30 mm

Bech Connection: 3mm

#### FEATURES:

1. Adopting the all new diaphragm pump. By calculating & testing, the smoke/gasoline ratio is controlled in a reasonable range for sufficient atomization, and airplane won't be polluted.

2. Adopting low power motor, the smoke pump can be directly powered by receiver. No need of extra batteries. The pump weighs only 65g.

3. Directly driven mode, no need of complicated program settings. Just need 1 channel for controlling.

#### INCLUDED:

1 x RCEXL smoking pump.

(The fuel pipe maybe other color, the really received version is subject to the final)
