### Description

RealFlight Evolution "evolves" the world's most popular RC flight sim with a modern user interface while adding dozens of fields and more than 100 additional aircraft models. It also gives you access to new models and fields that are released quarterly.

A fresh and modern user interface that's even easier and more intuitive to use, virtually eliminating the need to use a mouse or keyboard with the InterLink DX controller.

More than a dozen of the newest and most popular ultra micro, sport, scale, EDF and trainer aircraft from E-flite, HobbyZone and Hangar 9 plus multiple helicopters from Blade.

Fly at the newest "PhotoField" – the main flying site from Triple Tree Aerodrome, home of the world-famous "Joe Nall" and other events.

More than 100 additional aircraft plus dozens of 3D fields and PhotoFields previously only available separately via Expansion Packs.

Access to new models and fields released quarterly (starting in early 2023) for purchase à la carte, in money-saving content packs, or with yearly season passes.

IN THE BOX:

1) RealFlight Evolution Steam® Key (on card)

1) RealFlight Evolution Installation Guide

NEEDED TO COMPLETE:

Compatible PC, laptop or desktop with Windows 8, Windows 10 or Windows 11

Internet connection to download the Steam® Client and RealFlight Evolution software

Spektrum InterLink DX Simulator Controller, a Spektrum wireless simulator dongle plus a compatible DSM2/DSMX equipped transmitter, a RealFlight compatible controller, or other compatible Gamepad/JoyStick

The most modern, feature-packed, and expandable RC flight simulator you

For more than two decades, RealFlight® has been the #1 RC flight simulator in the world. It's the absolute best tool new RC pilots can use when learning how to fly. It also makes it possible for experienced RC pilots to practice new maneuvers and hone their skills so they can become even better pilots. Plus, it's the best way to try new Horizon Hobby and other models before you buy them!

With more than 300 different aircraft to fly – including airplanes, helicopters, drones, and more – at over 75 different flying sites, plus the ability to edit and add aircraft and sites, there is an almost infinite number of flying options available. Add in Virtual Flight Instructor lessons, game-like challenges, multiplayer options so you can fly and compete with other pilots online, compatibility with VR headsets, and many, many more features, and you have everything you need to succeed at the field – because you can "fly" on a desktop at home, or on a laptop just about anywhere else.

RealFlight Evolution "evolves" the world's most popular RC flight sim with a fresh and modern user interface, adds the main flying site from Triple Tree Aerodrome – home of the world-famous "Joe Nall" and other events – plus dozens of other 3D fields and PhotoFields. It also adds more than a dozen of the newest and most popular aircraft from E-flite®, HobbyZone®, Hangar 9® and Blade®, and more than 100 additional aircraft models. Best of all, it also gives you access to new models and fields that will be released quarterly (starting in early 2023) for purchase à la carte, in money-saving content packs, or with yearly season passes!

That access to new models and fields comes as a result of RealFlight Evolution being delivered exclusively via Steam® – the world's largest digital distribution platform for PC games and simulations. Steam eliminates the need to use DVDs and compatible drives for installation, provides seamless and automatic software updates, and even allows you to install RF Evolution on multiple PCs using the Steam Client and your account. There's no serial number to lose over time and it's easier than ever to add RealFlight to additional PCs in the future!

RF Evolution runs on a wide variety of PCs (Personal Computers) from low-cost laptops to "gaming" desktops running Windows® 8, 10 or 11. It's available as software only, or with the Spektrum™ InterLink® DX Simulator Controller – which connects directly to a USB port for easy plug-and-play use – that's modeled after Spektrum transmitters (including all standard switch locations and functions so it works just like your favorite radio!) Or you can use the WS2000 USB Dongle (sold separately) with a compatible Spektrum 2.4GHz transmitter, like the DXS transmitter included with many of the most popular Ready-To-Fly (RTF) trainer aircraft. Wireless operation. It's even compatible with direct USB connection to Spektrum NX6, NX8, NX10 and other transmitters!

RealFlight Evolution includes some of the newest and most popular aircraft from E-flite, HobbyZone, Hangar 9 and Blade:

E-flite UMX Timber X with AS3X® and SAFE® Select Technologies

E-flite UMX Link with AS3X and SAFE Select Technologies

E-flite UMX Radar with AS3X and SAFE Select Technologies

E-flite Night Raven 2.0m with AS3X and SAFE Select Technologies

E-flite T28 Trojan 1.2m with AS3X and SAFE Select Technologies

E-flite Hubs SS (Super Sport) 80mm EDF with AS3X and SAFE Select Technologies

E-flite Hubs SS (Super Sport) 70mm EDF with AS3X and SAFE Select Technologies

E-flite F-16 Falcon 80mm EDF with AS3X and SAFE Select Technologies

Blade Viper 30mm EDF with AS3X and SAFE Select Technologies

HobbyZone Carbon Cub S2 1.0m with SAFE Technology

Hewage 3 Fun Scale P1 70 56 3 24

Hewage 3 Ultra Stick 67 EP

Hewage 3 Ultra Stick 67 10cc

Blade 150 S Helicopter with AS3X and SAFE Technologies

Blade iHawkon 181 Helicopter with AS3X and SAFE Technologies

Blade Fusion 480 (850) Strata Helicopter

If you purchased RealFlight 9.5S at any time you will receive a free copy of RealFlight Evolution. Internet connectivity is required to download the software via Steam after RF Evolution is released on October 26th, 2022.

If you purchased RealFlight 9 or 9.5 at any time you can exchange the serial number for a Steam key to update to 9.5S at no charge.

Internet connectivity is required to complete the exchange using the link below.

<https://keyexchange.realflight.com>

Then you can purchase and download RF Evolution via Steam at the discounted price of \$70 (versus the regular price of \$99.99) after it's released on October 26th, 2022.

## NEW REALFLIGHT EVOLUTION FEATURES

A fresh and modern user interface that's even easier and more intuitive to use, virtually eliminating the need to use a mouse or keyboard with the InterLink DX controller.

More than a dozen of the newest and most popular ultra micro, sport, scale, EDF and trainer aircraft from E-flite, HobbyZone and Hewage 3 plus multiple helicopters from Blade.

Fly at the newest "PhotoField™" – the main flying site from Trike, True Aerodrome, home of the world-famous "Joe Nair" and other aviators.

More than 100 additional aircraft plus dozens of 3D fields and PhotoFields previously only available separately via Expansion Packs.

Access to new models and fields released quarterly (starting in early 2023) for purchase à la carte, in money-saving content packs, or with yearly season passes.

Additional Virtual Flight Instructor lessons for new pilots learning to fly with the HobbyZone AeroScout 1.1m.

## MINIMUM RECOMMENDED SYSTEM

Windows 8 or Windows 10 or Windows 11™

Intel® Pentium® 1.0GHz or equivalent

812 MB RAM

10 GB Hard Drive Space

DVD Drive

3D ACCELERATED VIDEO WITH

512 MB Dedicated Video Memory

Full DirectX® 8 compliant (Shader Model 2.0 or better)

Spektrum InterLink DX Simulator Controller, a Spektrum wireless simulator dongle plus a compatible DSM2/DSMX equipped transmitter, a RealFlight® compatible controller, or other compatible Gamepad/Joystick.

Online Activation Required

Internet connectivity required for activation™ and to download additional content and updates.

## OPTIMAL SYSTEM

FOR BEST GRAPHICAL PERFORMANCE:

Dual Core 2.4GHz CPU

4 GB RAM

3D Accelerated Video with 512 MB dedicated video memory

## MULTIPLAYER REQUIREMENTS

Broadband Internet connection

Computer microphone for voice chat

## VR REQUIREMENTS

Compatible with some VR sets (available separately). Check manufacturer's requirements for VR system use.

Works with both the Oculus Rift and HTC Vive™ VR headsets.

Some graphical features may be disabled. Aerodynamic calculations will remain high quality.

™ Administrator access required

Windows is a registered trademark of Microsoft Corporation in the United States and other countries.
