### Description

Discover the breathtaking world of model building with the Dornier Do 335 "Pfeil" kit. This 1:48 scale model with its 81 precision-machined parts pays homage to the fastest piston-engined aircraft of its time. With a length of 288 mm, a height of 104 mm and a wingspan of 278 mm, the result is an impressive model that pays tribute not only to the history but also to the engineering of the original. Recommended for modelers aged 12 and over, the set is assigned to the Level 4 category and offers advanced hobbyists a challenging and rewarding project.

Dornier Do 335 "Pfeil" was a milestone in aviation history. Its exceptional speed and design, characterized by the arrangement of one engine each at the front and rear, made it the fastest piston-engine-driven aircraft of its time. First taken to the skies in 1943, this model reflects not only technical innovation, but also a fascinating piece of history. Don't just build a model, but a piece of history that will make an impression in any room!
