Description

Race and Pro Blends are designed to give the club racer exceptional power and long engine life. These track-proven fuels are engineered to provide a superior level of protection against extreme wear, maximize horsepower and cool crucial engine parts. Race Blend offers the most protection while Pro Blend gives you the most performance. Sidewinder was developed using our 30 plus years of experience in World-Class racing events. The wide-range of demands that each race puts on our fuels helps us ensure that Sidewinder meet the more extreme conditions encountered wherever you are racing.

Sidewinder Race and Pro Blends are formulated for victory and the long life of your expensive engine.
