### Description

**Note: This is a kit and must be assembled and painted.**

This model figure set contains 5 new modern age and contemporary figures compared to the 1983 release of the first Campus Friends Set. The collection of five figures and a scooter is useful to model dioramas given the adaptability of the figures to a range of accompanying models. The figures in this set are newly-scanned figures and are paired with a range of accessories more appropriate to the 2020s, with plenty of options to choose from.

**1/24 scale plastic figure assembly kit.**

**Parts are included to create five figures (four females, one male), they were designed using cutting edge 3D scanning techniques to recreate subtle details such as creases and wrinkles in clothing.**

**Natural poses include a figure taking a selfie, and more.**

**The male figure and one female feature a choice of head parts, two more female figures have a choice of right arm components.**

**Modern accessories include guitar case, coffee cup, smart phone, and various bags.**

**Makes for a great companion piece for models in the extensive Tamiya 1/24 Sports Car Series.**
