Description

Tamiya offers by far the easiest way to achieve realistic finishing effects on your scale models with the Weathering Stick. Use glue-stick type container to simply "paint" mud or snow onto tank treads or rally car chassis. With no need for a brush or palette, Tamiya's Weathering Stick takes modeling simplicity to new heights.

About the Stick

Each retractable stick holds 35mm of color.

Water soluble material can be wiped off model with a damp cloth.
