Description

This large-scale R/C assembly kit recreates the Volvo FH16 Globetrotter XL 750 4x2 Tractor. The FH16 series is the flagship of Swedish manufacturer Volvo Trucks, and it was the result of a model change in 2014. The top-class Globetrotter XL offers comfortable interior space and superior aerodynamics, and allows for distance travel coupled with a high-output 750hp engine.

1/14 scale R/C model assembly kit

Length: 462mm, width: 103mm, height: 305mm (excluding side mirrors and antenna)

The cab is faithfully recreated by precise injection moulding, and the distinctive front grille is captured by photo-etched parts.

Includes parts to render customized sections such as a roof bar featuring light pods, tow bar, and side bars. LEDs (sold separately) are also attachable.

Just like the actual vehicle, this model has rear-axle drive 4x2 chassis, and has the motor and transmission at the front of a metal ladder frame.

Assembly-type 3-speed transmission allows gear changes via separately available 4-channel transmitter.

Multi-Function Control Unit (Item 56523, MFC-03, sold separately) offers light, sound, and vibration operation.

Interior parts such as modern-design dashboard and seats are included and can be installed together with the Multi-Function Control Unit.

Compatible with a wealth of Tractor Truck Option Parts.

Includes a 1/14 scale driver figure.

REQUIRED TO COMPLETE:

4-channel Radio system

ESR

2xVotk battery with compatible charger.

Tamiya TS and bottle paints.
