Description

This 1/14 scale R/C Tractor Truck kit features an originally designed truck body. Hood, large roof spoiler, interior, and lights (clear orange parts), which have been artistically rendered in exquisite detail. Grill, tank, exhaust and steps have been beautifully rendered with metal plated parts. Kit includes stickers and 540 motor. 2.2V battery pack and R/C system are sold separately.

Truck Multi-Function Control Unit

Tamiya presents incredible sound and action options for the Tractor Truck Knight Hauler or any 1/14 scale R/C Tractor Truck with the R/C Tractor Truck Multi-Function Control Unit (Item #56511). This system, when mounted on the truck is located inside the cabin with speaker to the front and the MFC-01 unit to the rear. The control unit is mounted inside the left tool box for easy access. The Multi-Function Control Unit is sold separately.

4-Channel R/C system

By using your transmitter sticks and the trim you can control the truck movements (forward/backward running and turns), horn, motorized support legs (Item #96096) (sold separately), headlights, position lamps, roof lamps and speed indicators. You can also activate the back lamp, tail lamps and blinkers/hazard lamps as well as horns (optional).

The Knight Hauler can be equipped with 4 different semi-trailers (available separately).

Tamiya proposes 4 different semi-trailers that can be adapted to the Knight Hauler: A boxcar semi-trailer, a tank-trailer, a ferreted semi-trailer and a pole-trailer. When coupled with the Knight Hauler, you obtain a 1m long realistic truck. When using the multi function unit, which contains an electronic speed controller, you can run your truck very slowly.

With sound and light effects, you will swear this is an actual truck.

9 LED for 9 light functions

All lamps employed with the multi function unit are high brightness type LED. Can be turned on/off with the transmitter.

White LED Headlamps

LED lamps

Position lamps

Back lamp

Orange LED Roof lamps

Blinkers

Hazard lamps

Speed indicator

Red LED Tail lamp
