### Description

Tamiya presents incredible sound and action options for any 1/14 scale R/C Tractor Truck with the all R/C Tractor Truck Multi-Function Control Unit. This system, when mounted on the truck, is located inside the cabin with speaker to the front and the MFC-01 unit to the rear. The control unit is mounted inside the left tool box for easy access.

4-channel R/C system activates all functions.

By using your transmitter sticks and the trim you can control the truck movements (forward/backward running and turns), horn, motorized support legs (item #56505) (sold separately), headlights, position lamps, roof lamps and speed indicators. You can also activate the back lamp, tail lamps and blinkers/hazard lamps as well as brake reversing.

9x LED for 9 light functions.

All lamps employed with the multi-function unit are high brightness type LED. They are employed to reproduce headlights, position lamps, roof lamps, speed indicators, fog lamps, back lamp, tail lamps and blinkers/hazard lamps, which can be turned on/off with the transmitter.

24 Radio-Controlled Sound Effects:

The multi-function unit offers 24 radio-controlled sounds that have been digitally recorded from an actual tractor truck.
