### Description

**New Cross-Section of HMS Victory, 1:72 Wooden Model Ship Kit**

The new wooden section of the English ship of the line HMS Victory from the 18th and 19th centuries is a 1805 Trafalgar Edition naval modeling kit at 1:72 scale aimed at beginner modelers. While the modeler is assembling this museum-quality model ship, he/she will get a taste of what life was like on board.

**CONTENTS OF HMS VICTORY SHIP OF THE LINE SECTION:**

Build your 1:72 scale model ship of HMS Victory section, the model of the English ship of the line from the XVIII and XIX Centuries. Its construction system using false keel and frames about the assembly of the mastsure to the construction of the real British vessel. This section will allow you to examine in depth the construction and structure of the boat, as well as the detail of its six decks.

In order for this fantastic section of HMS Victory to be a model completely faithful to the original replica, we recommend that you paint it with our Specific Set of Water-Based Acrylic Paints (277PACK29), for sale separately. For the protection of the model while it is on display and to give it a museum touch, we strongly suggest that you place it in its fabulous Methacrylate Urn (20500AS), also for sale separately. And finally, illuminate the section if you want to give it more realism with the LED Lighting Set for Models and DIY Projects (27590).

Remember that you can acquire everything your model needs with the Gift Pack HMS Victory section (20500L), which includes the model, its methacrylate display urn, its set of LED lights, its paint pack and a micro riveting tool to cover the hull with copper. And at a lower price than if you buy all the products separately!
